

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING

TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF
POWER WHILE INSTALLING OR SERVICING THIS FIXTURE.

NOTE: Before installing, consult local electrical codes for wiring and grounding requirement.

1. Let the two supplied screws pass through the holes specially provided on the cross bar and lock them.
2. Fix the cross bar to the outlet box using the supplied screws.
3. Connect the wires of the system to the outlet box.

Make wire connections with wire nuts:

- Attach ground wire to house ground wire using a wire nut or attach them to the cross bar with a green ground screw.
- Attach ribbed wire from light to white wire from power source with a wire nut.
- Attach smooth wire from light to black wire from power source with a wire nut.

Observing the color code: black with black, white with white, green with green.

4. Fix nut and washer on the nipple, then aim the light body at the nipple and use ball nut to fix the light body on the wall.
5. Place the poly candle sleeve on the socket.
6. Install bulbs taking care of the prescribed watt value.
7. Hang the crystal beads on the arm heads.
8. Turn on the power at fuse or circuit box.
