

# ASSEMBLY AND INSTALLATION INSTRUCTIONS

## **WARNING:**

TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF  
POWER WHILE INSTALLING OR SERVICING THIS FIXTURE.

**NOTE:** Before installing, consult local electrical codes for wiring and grounding requirement.

1. Let the two supplied screws pass through the holes specially provided on the cross bar and lock them.
2. Fix the cross bar to the wall using thumb screws, anchors-not supplied.
3. Connect the wires of the system to the terminal block box.

**Make wire connections with wire nuts:**

- Attach ground wire to house ground wire using a wire nut or attach them to the cross bar with a green ground screw.
- Attach ribbed wire from light to white wire from power source with a wire nut.
- Attach smooth wire from light to black wire from power source with a wire nut.

**Observing the color code: black with black, white with white, green with green.**

4. Fix C put on D, make C fixation tight.
5. Aim the light body at the screw on the wall, and use E fix the light body on the wall.
